

## EXPERIENCE

### Kayhan Space

Head of Product, 11/21—Current

Remote

Produced from scratch, “Pathfinder”, a Space Domain Awareness tool for satellite operators to manage high-count events of possible conjunctions involving their space assets.

Re-branded the company’s identity along with the design and development of the corporate website.

### HawkEye 360

Principal Designer, 01/20—11/21

Herndon, VA

Designed end-to-end, “Mission Space”, a first-of-a-kind geospatial intelligence platform for intelligence analysts.

Created a customer-centric satellite resource management system to optimize data collection and automate business processes.

Advanced the design practice in the company as the first design hire and later created a team with two additional designers after proving effectiveness of the discipline and work.

## IBM

Associate to Sr. Designer, 07/13—12/19

Multiple locations

Crafted product-like experiences for research-stage sciences and technologies; including the flagship research projects of IBM Research: Project Debater and IBM Quantum.

Collaborated with researchers, designers, and engineers to explore the future of IBM’s technology and investments.

Contributed user-experience design, design research, cybersecurity data analysis, and application development to IBM Security.

Cultivated and protected IBM’s intellectual property by evaluating proposed inventions from fellow associates worldwide.

## EDUCATION

### Rutgers University

BA in Graphic Design, graduated 2013

Camden, NJ

## NOTABLE MENTIONS

Filed 14 patents and authored 4 defensive publications at IBM.

Authored open-source message and file encryption suites, “MagicPad” and “MagicPost” with over 25,000 offline client downloads and serving ~1,500 users per month online.

Design contributions featured by Fast Company and recognized by the Clío Awards.

Wrote, designed, and published “так...” a photobook that has been exhibited in the official Chernobyl Library and Chernobyl Museum in Ukraine. Upon launch, “так...” was the #1 seller in the “Photo Essays” category on Amazon.

Co-led a voter-nominated workshop focused on privacy and counter-surveillance with 60+ participants at SXSW Interactive.

Host of the “Envisioneer Award” for design graduates at Rutgers University since 2013.

## TECHNICAL PROFICIENCIES

Proficient in Figma, Adobe CC, Sketch, SCSS, React, NextJS, TypeScript, NodeJS, JS/HTML/CSS, My/NoSQL, PHP, Git, and \*nix.

Experienced in collaborating remotely and locally with small to large teams comprised of various backgrounds.

Proficient in multiple areas of design, including: UX, interaction, visual, motion, and branding.

Capable of driving a manual transmission Ukrainian T-64 main battle tank.
